OBJECTIVE

Dedicated Software Engineering student at University of Information Technology. Developing a strong foundation in web development through relevant coursework.

Aspiring Web Developer with a passion for creating intuitive and visually appealing digital experiences. Proficient in HTML, CSS, and JavaScript, I am eager to apply classroom knowledge to practical projects, contribute my skills to a dynamic team and learn from experienced professionals.

PROJECTS

ONLINE FURNITURE STORE - ADMIN WEBSITE

Front-end Developer - Course Project

📅 03/2023 - 01/2024

An online furniture shop admin panel, providing user-friendly tools for managing products, orders, customers, and sales activities

- Technologies: TypeScript, React, Tailwind CSS, Material UI, Redux
- Github: [PhucNguyenHoang611/NGUYENS_HOME_Furniture-ADMIN](https://github.com/PhucNguyenHoang611/NGUYENS_HOME_Furniture-ADMIN) (github.com)

ONLINE FURNITURE STORE - API

Back-end Developer - Course Project

📅 03/2023 - 01/2024

An API for an online furniture shop, offering seamless integration for managing products, orders, customer data, and sales transactions

- Technologies: JavaScript, Node.js, Express, MongoDB
- Github: [PhucNguyenHoang611/NGUYENS_HOME_Furniture-API](https://github.com/PhucNguyenHoang611/NGUYENS_HOME_Furniture-API) (github.com)

SOCIAL NETWORKS SUPPORT FINDING LOST ITEMS

Front-end Developer - Course Project

📅 02/2024 - 06/2024

A social network for lost and found items, utilizing a micro-frontend architecture to deliver a flexible user experience and scalable functionality

- Technologies: TypeScript, React, Tailwind CSS, Jotai, Apollo Client, Module Federation, Socket.IO
- Github: [PhucNguyenHoang611/Finder_App](https://github.com/PhucNguyenHoang611/Finder_App) (github.com)

LIVE CHAT WEBSITE

Fullstack Developer - Personal Project

📅 03/2023 - 04/2023

A simple online chat website, providing an intuitive interface for real-time communication and easy interaction between users

- Front-end technologies: JavaScript, React, Tailwind CSS, MUI, Redux
- Back-end technologies: JavaScript, Node.js, Express, MongoDB, Socket.IO
- Github: [PhucNguyenHoang611/BeFriendsChatApplication](https://github.com/PhucNguyenHoang611/BeFriendsChatApplication) (github.com)

EDUCATION

University of Information Technology - VNUHCM

Software Engineering - GPA: 8.08 / 10

📅 2020 - 2024 📍 Vietnam

WORK EXPERIENCE

Front-end Developer (Internship)

📅 08/2023 - 11/2023 📍 EDUNET Co., Ltd - Vietnam
